JOHN SPORTEE

age: 9 years | place: NZ Demo Camp Wanaka | date: 02. 09. 2019

Discipline	Performance	Skill	Evaluation levels compared to your child's peers
1. Height	135 cm	height	<input type="checkbox"/> small <input checked="" type="checkbox"/> medium <input type="checkbox"/> tall
2. Capture the flag	3 pts	game overview	<input type="checkbox"/> low <input type="checkbox"/> medium <input checked="" type="checkbox"/> high
3. 30m sprint	5.8 s	speed	<input checked="" type="checkbox"/> 75 %
4. Long jump / Triple jump	130 cm	explosiveness	<input checked="" type="checkbox"/> 41 %
5. Basketball throw	420 cm	power	<input checked="" type="checkbox"/> 73 %
6. 500/1000m run	2 min 40 s	aerobic capacity	<input checked="" type="checkbox"/> 38 %
7. Coordination test	35 s	coordination	<input checked="" type="checkbox"/> 27 %
8. The Stork	25 s	balance	<input checked="" type="checkbox"/> 89 %
9. Bend forward	15 cm	flexibility	<input checked="" type="checkbox"/> 99 %

Individual evaluation

— your child's results
- - - average results of peers of the same age and sex

Dominant Physical Skill

- speed
- power
- endurance
- coordination

Tactical Skills

- low
- medium
- high

Description of strengths

Strength: SPEED

Speed is a basic but very important attribute in all athletes. It is the ability to perform motion (up to 20 seconds) with no or low resistance as fast as possible. Speed development is a very difficult training task because it mostly depends on an athlete's natural predispositions.

Tactical skills

Good tactical skills are necessary for sports where lots of players are on the field. You need to have good vision, good read of a situation and be able to make quick decisions. Tactical skills are important in 1 on 1 sports also, like tennis, where it is necessary to analyze the position of the other player and prepare how and where to play the ball.
